# ANNUAL RESULTS FOR THE YEAR ENDED 30 JUNE 2020

FINANCIAL HIGHLIGHTS				
		2020	2019 (restated) <sup>(i)</sup>	% Change
		HK\$M	HK\$M	
Revenue	:	4,882.1	5,422.7	-10.0%
Gross profit	:	760.4	769.5	-1.2%
Profit attributable to shareholders of the Company	:	309.6	307.4	+0.7%
Basic earnings per share	:	HK\$0.68	HK\$0.68	_

# The Board recommended the declaration of a final dividend of HK14.4 cents (2019: HK11.9 cents) per ordinary share to the ordinary shareholders of the Company for the year ended 30 June 2020<sup>(ii)</sup>.

- Note (i) Comparative figures have been restated for the Group's application of merger accounting for business combinations under common control. Details of the restatements are set out in Note 1(iv) to the consolidated financial statements.
- Together with the interim dividend of HK12.8 cents (2019: HK10.1 cents) per share paid in March Note (ii) 2020, total distribution of ordinary share dividends made by the Company to its ordinary shareholders for the year ended 30 June 2020 will be HK27.2 cents (2019: HK22.0 cents) per share, representing an increase of 23.6% compared with last year's and a dividend payout ratio of 45.7% (2019: 40.0%), calculated based on the Group's adjusted profit for the year ended 30 June 2020 attributable to ordinary shareholders of HK\$267.7M (i.e. after excluding the profit of HK\$37.3M made by the property and facility management services business during the period from 1 July 2019 to 16 December 2019, the day of completion of the Group's acquisition of the property and facility management services business as described in Note 1(iv) to the consolidated financial statements, and preferred distribution to the holder of convertible preference shares of HK\$4.6M for the year ended 30 June 2020 from profit attributable to shareholders of the Company of HK\$309.6M) (For year ended 30 June 2019: 40.0%, calculated based on the Group's profit for the year ended 30 June 2019 attributable to shareholders of the Company of HK\$247.5M as previously reported in the Group's consolidated financial statements for the year ended 30 June 2019 which does not include the profit of HK\$59.9M made by the property and facility management services business during the year ended 30 June 2019 accounted for pursuant to its application of merger accounting for business combinations under common control as mentioned in Note (i) above).

The board of directors (the "Board") of FSE Services Group Limited (the "Company") is pleased to announce the audited consolidated results of the Company and its subsidiaries (collectively the "Group") for the year ended 30 June 2020 ("FY2020" or the "Year").

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 1. Basis of preparation

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and requirements of the Hong Kong Companies Ordinance Cap. 622. The consolidated financial statements have been prepared under the historical cost convention.

The preparation of consolidated financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies.

# (i) New standard, amendments, interpretation and improvements to existing standards that are effective for the Group's financial year beginning on 1 July 2019

The following new standard, amendments, interpretation and improvements to existing standards, that are relevant to the Group's operation, are mandatory for the financial year of the Group beginning on 1 July 2019:

HKAS 19 Amendments	Plan Amendment, Curtailment or Settlement
HKAS 28 Amendments	Long-term Interests in Associates and Joint Ventures
HKFRS 9 Amendments	Prepayment Features with Negative Compensation
HKFRS 16	Leases
HK (IFRIC) - Int 23	Uncertainty over Income Tax Treatments
Annual Improvements	2015 – 2017 Cycle

# (ii) Adoption of new standard, amendments, interpretation and improvements by the Group

The Group's adoption of the above pronouncements neither has any material effect on the results and financial position of the Group nor any substantial changes in the Group's accounting policies and presentation of its consolidated financial statements, except for HKFRS 16 as described below.

### HKFRS 16 "Leases"

HKFRS 16 addresses the definition of a lease and recognition and measurement of leases and establishes principles for reporting useful information to users of financial statements about the leasing activities of both lessees and lessors. A key change arising from HKFRS 16 is that most operating leases are accounted for on the statements of financial position for lessees. The Group is a lessee of certain premises and properties which are previously classified as operating leases. HKFRS 16 provides a new provision for the accounting treatment of leases when the Group is the lessee. Almost all leases should be recognised in the form of assets (for the right-of-use) and financial liabilities (for the payment obligations). Short-term leases of twelve months or less and leases of low-value assets are exempted from the recognition. The new standard therefore results in an increase in assets and financial liabilities in the consolidated statements of financial position. As for the financial performance impact in the consolidated income statements, straight-line depreciation expense on the right-of-use assets and the interest expenses on the lease liabilities are recognised and no rental expenses are recognised. The combination of a straight-line depreciation of the right-of-use assets and the effective interest rate method applied to the lease liabilities will result in a higher total charge to the consolidated income statements in the initial years of the lease, and decreasing expenses during the latter part of the lease term.

The Group has adopted HKFRS 16 from 1 July 2019, but has not restated its comparative amounts for the year ended 30 June 2019 as permitted under the specific transition provisions in the standard. The effects of the adoption of HKFRS 16 are set out in Note 2 below.

# (iii) Amendments to existing standards and improvements that have been issued but not yet effective and have not been early adopted by the Group

The following amendments to existing standards and improvements, that are relevant to the Group's operation, have been issued but not yet effective for the financial year of the Group beginning on 1 July 2019 and have not been early adopted:

Effective for

		accounting periods
		beginning on or after
Conceptual Framework for Financial Reporting 2018	Revised Conceptual Framework for Financial Reporting	1 January 2020
HKAS 1 and HKAS 8 Amendments	Definition of Material	1 January 2020
HKFRS 3 Amendments	Definition of a Business	1 January 2020
HKFRS 9, HKAS 39 and HKFRS 7 Amendments	Interest Rate Benchmark Reform	1 January 2020
HKFRS 16 Amendments	Covid-19-related Rent Concession	1 June 2020
HKAS 16 Amendments	Property, Plant and Equipment: Proceeds before Intended Use	1 January 2022
HKAS 37 Amendments	Onerous Contracts – Cost of Fulfilling a Contract	1 January 2022
HKFRS 3 Amendments	Reference to Conceptual Framework	1 January 2022
Annual Improvements	2018 – 2022 Cycle	1 January 2022
HKAS 1 Amendments	Classification of Liabilities as Current or Non-current	1 January 2023
HKFRS 17 Amendments	Insurance Contracts	1 January 2023
HKFRS 10 and HKAS 28 Amendments	Sale or Contribution of Assets between an Investor and Its Associate or Joint Venture	To be determined

The Group has already commenced an assessment of the impact of the above pronouncements to the Group and considered that there will not be any substantial changes to the Group's accounting policies and presentation of its consolidated financial statements.

#### (iv) Application of merger accounting for business combinations under common control

On 18 October 2019, the Company and FSE Property Management Group Limited ("FPMGL"), a wholly owned subsidiary of the Company, as the purchaser and FSE Management Company Limited ("FMC"), a fellow subsidiary of the Company, as a vendor entered into a conditional sale and purchase agreement, pursuant to which FMC agreed to sell, and the Company agreed to purchase (or to procure a wholly-owned subsidiary to purchase) the entire issued share capital (the "Sale Share") of Legend Success Investments Limited and its subsidiaries (the "Target Group") at an initial sum of consideration of HK\$704.9 million, subject to subsequent adjustment by reference to the change in the net tangible asset value ("NTAV") of the Target Group from 30 June 2019 to the date of completion of the acquisition. Pursuant thereto, the Company has nominated FPMGL to buy the Sale Share. The initial sum of consideration was satisfied by the Company through (i) the payment of HK\$564.0 million in cash and (ii) a non-cash consideration of HK\$140.9 million through the issuance and allotment by the Company of 43,676,379 non-voting redeemable convertible preference shares of HK\$0.10 each at the issue price of HK\$3.2260 per share to FMC, credited as fully paid. The Group's payment for the initial cash consideration for this transaction was mainly financed by a bank loan with a principal amount of HK\$563.9 million drawn in December 2019, which bears interest at 0.7% per annum over Hong Kong Interbank Offered Rate. After the Group's repayment of HK\$100.0 million of this bank loan during the year, its carrying amount at 30 June 2020, net of unamortised transaction costs, was HK\$463.2 million. The convertible preference shares are convertible into 43,676,379 ordinary shares of the Company at an initial price of HK\$3.2260 per share, subject to adjustments, at any time within 10 years following its issuance date of 16 December 2019. The acquisition was completed on 16 December 2019 (the "Completion Date") and a positive NTAV adjustment of HK\$38.5 million was made to the consideration for this transaction, which thus in aggregate amounts to HK\$743.4 million. The total amount of such consideration has been charged directly to the Group's reserves. A final cash payment of the consideration of HK\$38.5 million was made on 13 February 2020 with reference to the unaudited net tangible asset value of the Target Group as at the Completion Date of the acquisition. The Target Group (or the "Acquired Group") is principally engaged in the provision of property and facility management services, property agency and related services for buildings, carparks management services and guarding services in Hong Kong.

The acquisition was considered as a business combination under common control as FPMGL and the Target Group are both ultimately controlled by FSE Holdings Limited. The acquisition of the Target Group was accounted for using merger accounting in accordance with Hong Kong Accounting Guideline 5 "Merger Accounting for Common Control Combinations" ("AG 5") issued by the HKICPA. Accordingly, the acquired Target Group was included in the consolidated financial statements from the beginning of the earliest period presented as if the Target Group acquired had always been part of the Group. As a result, the Group has included the operating results of the Target Group and eliminated its transactions with the Target Group, as if the acquisition had been completed on the earliest date being presented.

(a) Effect on the consolidated income statement for the year ended 30 June 2020:

	The Group (before business combination under common control) HK\$'000		Adjustments (Note) HK\$'000	Consolidated HK\$'000

Note: The adjustments represent the elimination of trade and other receivables/payables of the Group and the Acquired Group.

## 2. Changes in Accounting Policies

As explained in Note 1(ii) above, the Group has adopted HKFRS 16 starting from 1 July 2019, which resulted in changes in its accounting policies and adjustments to the amounts recognised in the consolidated financial statements. In accordance with the transitional provisions in HKFRS 16, comparative amounts have not been restated.

On adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as "operating leases" under the principles of HKAS 17 "Leases". These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as at 1 July 2019. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on 1 July 2019 was 3.7%.

Upon initial recognition, right-of-use assets for leases were measured at the amounts equal to the lease liabilities in the consolidated statement of financial position. After the initial recognition of right-of-use assets and lease liabilities at 1 July 2019, the Group as a lessee has recognised interest expense accrued on the outstanding balance of the lease liabilities, and the depreciation of the right-of-use assets, instead of the previous accounting policy of recognising rental expenses incurred under operating leases on a straight-line basis over the lease term.

In applying HKFRS 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- the accounting for operating leases with a remaining lease term of twelve months or less as at 1 July 2019 as short-term leases;
- the exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application; and
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

Set out below is a reconciliation of the Group's operating lease commitments at 30 June 2019 disclosed to lease liabilities recognised on 1 July 2019:

	HK\$'000
Operating lease commitments at 30 June 2019 disclosed	70,942
Acquisition of the Acquired Group	18,505
Operating lease commitments at 30 June 2019 restated	89,447
Discounted using the Group's weighted average incremental borrowing rate of 3.7%	84,814
Less: short-term leases not recognised as liabilities	(5,901)
Lease liabilities recognised at 1 July 2019	78,913
Of which are:	
Non-current	44,049
Current	34,864
	78,913

Set out below is a composition of right-of-use assets as at 1 July 2019:

	HK\$'000
Right-of-use assets relating to operating leases recognised upon application of HKFRS 16	78,913
Reclassified from land use rights	20,432
Total	99,345

The following table summarises the opening effect on the Group adoption of HKFRS 16 as at 1 July 2019 and the amount of right-of-use assets and lease liabilities recognised as at 1 July 2019:

	As at 1 July 2019		
	Effects of the		
	As previously	adoption of	
	reported	HKFRS 16	As restated
	HK\$'000	HK\$'000	HK\$'000
Consolidated statement of financial position			
(Extract)			
Non-current assets	-	99,345	99,345
Right-of-use assets	20,432	(20,432)	—
Land use rights			
Non-current liabilities	_	44,049	44,049
Lease liabilities			
Current liabilities			
Current portion of lease liabilities	_	34,864	34,864

The adoption of HKFRS 16 has no significant impact to the Group's consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and net cash flows from operating, investing and financing activities on the consolidated statement of cash flows for the year ended 30 June 2020.

The Group does not need to make any adjustments to the accounting for its assets held as lessors under operating leases as a result of the adoption of HKFRS 16.

#### 3. Revenue and segment information

The Executive Directors are the Group's chief operating decision-makers ("CODM"). Management has determined the operating segments based on the information reviewed by the CODM for the purposes of allocating resources and assessing performance.

The Group's revenue represents the electrical and mechanical ("E&M") engineering service income, environmental services income and income from trading of building materials, integrated property & facility services income. An analysis of the Group's revenue is as follows:

For the year ended 30 June	2020	2019 (restated)
	HK\$'000	HK\$'000
Revenue		
Contracting services	2,876,010	3,506,894
Maintenance services	145,948	137,879
Sales of goods	63,543	92,099
Integrated property & facility services	1,796,618	1,685,841
Total	4,882,119	5,422,713

Following the acquisition of the property and facility management services business as described in Note 1(iv), the Group's CODM has reorganised the Group's businesses into two major business segments as described below to align more closely with the market dynamics and the Group's strategic direction. As a result of such changes occurred during the year ended 30 June 2020, the Group's prior year corresponding segment information that is presented for comparative purpose has been restated accordingly.

The CODM considers the business from product and service perspectives and the Group is organised into two major business segments according to the nature of services and products provided:

- (i) E&M engineering & environmental services Provision of engineering and consultancy services and trading of building materials and environmental products; and
- (ii) Integrated property & facility services Provision of cleaning and waste disposal services, recycling and environmental disposal services, laundry services, property and facility management services, property agency and related services for buildings, carparks management services and guarding services.

The CODM assesses the performance of the operating segments based on each segment's operating profit. The measurement of segment operating profit excludes the effects of unallocated corporate expenses. In addition, finance income and costs and share of results of an associate and joint ventures are not allocated to segments.

Operating expenses of a functional unit are allocated to the relevant segment which is the predominant user of the services provided by the unit. Operating expenses of other shared services which cannot be allocated to a specific segment and corporate expenses are included as unallocated corporate expenses.

Segment assets are those operating assets that are employed by a segment in its operating activities. Segment assets are determined after deducting related allowance that are reported as direct offsets in the statement of financial position. Segment assets consist primarily of property, plant and equipment, investment property, right-of-use assets, land use rights, other intangible assets, deferred income tax assets, pension assets, trade and other receivables, contract assets, interests in an associate, interests in joint ventures, inventories and cash and bank balances.

Segment liabilities are those operating liabilities that result from the operating activities of a segment. Segment liabilities do not include other liabilities that are incurred for financing rather than operating purpose unless the segment is engaged in financing activities.

As at 30 June 2020, unallocated assets and unallocated liabilities represented the assets and liabilities not arising from the operations of the operating segments.

Prior year's corresponding segment information that is presented for comparative purposes has been restated to conform with AG 5 issued by the HKICPA as a result of the acquisition of the Group which detailed in Note 1(iv).

Capital expenditure comprises mainly additions to property, plant and equipment, right-of-use assets and other intangible assets.

### (a) As at and for the year ended 30 June 2020

The segment results for the year ended 30 June 2020 and other segment items included in the consolidated income statement are as follows:

	E&M engineering & environmental services HK\$'000	Integrated property & facility services HK\$'000	Inter-segment elimination HK\$'000	Total HK\$'000
Revenue – External Revenue – Internal	3,085,501 4,801	1,796,618 4,849	(9,650)	4,882,119

<ul> <li>Trade and other receivables</li> </ul>	3,215	59		3,274

The segment assets and liabilities as at 30 June 2019 and capital expenditure for the year then ended are as follows:

	E&M engineering & environmental services HK\$'000	Integrated property & facility services HK\$'000	Total HK\$'000
Segment assets, as restated Unallocated assets	1,934,020	759,750	2,693,770 259,115
Total assets, as restated			2,952,885
Segment liabilities, as restated Unallocated liabilities, as restated	1,699,535	364,964	2,064,499 34,052
Total liabilities, as restated			2,098,551
Total capital expenditure, as restated	5,582	26,504	32,086

Revenue from external customers by geographical areas is based on the geographical location of the customers.

Revenue is allocated based on the regions in which the customers are located as follows:

For the year ended 30 June	2020	2019 (restated)
	HK\$'000	HK\$'000
Revenue		
Hong Kong	4,171,064	4,430,380
Mainland China	382,256	792,671
Macau	328,799	199,662
Total	4,882,119	5,422,713

The analysis of the Group's major customers, which a single external customer has contributed 10% or more to the Group's revenue, is as follows:

For the year ended 30 June	2020	2019
	HK\$'000	(restated) HK\$'000
Customer A Customer B	745,031 532,765	756,633 1,104,439

The revenue contributed by the above major customers is mainly attributable to the Group's E&M engineering & environmental services segment in Hong Kong and Mainland China, and integrated property & facility services segment in Hong Kong.

The non-current assets, other than deferred tax assets and pension assets, are allocated based on the regions in which the non-current assets are located as follows:

As at 30 June	2020	2019 (restated)
	HK\$'000	(restated) HK\$'000
Non-current assets, other than deferred tax assets and pension assets		
Hong Kong	475,101	463,305
Mainland China	27,904	29,789
Macau	29,492	24,680
Total	532,497	517,774

### 4. Other (expenses)/income, net

For the year ended 30 June	2020	2019
	HK\$'000	(restated) HK\$'000
Impairment loss on property, plant and equipment	(11,394)	_
Impairment loss on right-of-use assets	(2,502)	_
Exchange loss, net	(1,334)	(763)
Rental income	2,346	2,328
Government grants (Note i)	1,186	-
Gain/(loss) on disposal of property, plant and equipment, net	529	(388)
Ex-gratia payments from the government for retirement of motor vehicles	449	489
Release of exchange reserve upon dissolution of subsidiaries	_	1,905
Sundries	1,375	1,709
Total	(9,345)	5,280

Note:

(i) During the year ended 30 June 2020, the Group has received government grants from the Antiepidemic Fund set up by the Government of the Hong Kong Special Administrative Region (the "HKSAR Government") under a One-off Subsidy Scheme as financial support for its businesses and licensed goods vehicles. Under this scheme, one-off subsidies are provided to eligible businesses depending on their industries, which have business commenced before 1 January 2020 and is still in operation at the time of application. There are no unfilled conditions or other contingencies attaching to these grants.

# 5. Operating profit

For the year ended 30 June	2020	2019
Operating profit is stated after charging/(crediting):	HK\$'000	(restated) HK\$'000
Staff costs (including Directors' emoluments)	1,744,811	1,657,068
Subcontracting fees	1,599,882	1,952,382
Raw materials and consumables used	775,029	1,058,327
Cost of inventories sold	49,075	49,937
Depreciation of property, plant and equipment	42,353	45,408
Depreciation of right-of-use assets	41,531	_
Operating lease rental for land and buildings	8,491	50,398
Auditors' remuneration		
Audit services	5,337	5,412
Non-audit services	2,473	594
Impairment loss on trade and other receivables	2,168	3,274
Amortisation of intangible assets <sup>(i)</sup>	1,514	1,514
Depreciation of investment property	385	385
(Reversal of provision)/provision for inventories	(50)	456
Reversal of impairment loss on trade receivables	(47)	(626)
Amortisation of land use rights	-	581

Note:

(i) Included in general and administrative expenses

Save as disclosed in this note and elsewhere in the consolidated financial statements, the other items charged/credited to the Group's operating profit are of individually immaterial amounts, which include insurance expenses, utility expenses, motor vehicles expenses, etc.

#### 6. Income tax expenses

For the year ended 30 June	2020	2019 (restated)
	HK\$'000	HK\$'000
Current income tax		
Hong Kong profits tax	60,266	52,503
Mainland China taxation		
Income tax	245	5,175
Macau taxation	-	(2,777)
Under/(over)-provision in prior years	54	(140)
Deferred income tax expense		
Income tax	(6,571)	5,667
Withholding tax	(109)	715
Total	53,885	61,143

Hong Kong profits tax has been provided at the rate of 16.5% (2019: 16.5%) on the estimated assessable profit for the year. Taxation on Mainland China and Macau profits has been calculated on the estimated assessable profit for the year at the rates of taxation prevailing in the jurisdictions in which the Group operates. These rates range from 12% to 25% for the year ended 30 June 2020 (2019: 12% to 25%). According to applicable the People's Republic of China ("PRC") tax regulations, dividends distributed by a company established in the PRC to a foreign investor with respect to profits derived after 1 January 2008 are generally subject to a 10% withholding tax. If a foreign investor is incorporated in Hong Kong and meets the conditions or requirements under the double taxation arrangement entered into between the Mainland China and Hong Kong, the relevant withholding tax rate will be reduced from 10% to 5%. Hence, the Group used 5% to accrue the withholding tax for certain PRC subsidiaries which are expected to fulfill the aforesaid conditions.

The taxation on the Group's profit before income tax differs from the theoretical amount that would arise using the taxation rate of Hong Kong as follows:

For the year ended 30 June	2020	2019
	HK\$'000	(restated) HK\$'000
Profit before income tax Less: Share of results of	363,474	368,591
An associate	(898)	(937)
Joint ventures	(115)	207
	362,461	367,861
Calculated at a tax rate of 16.5% (2019: 16.5%)	59,806	60,697
Tax losses not recognised	973	881
Expenses not deductible for taxation purposes	4,956	1,764
Withholding tax on undistributed earnings from subsidiaries		
in Mainland China	(109)	715
Income not subject to taxation	(8,165)	(1,375)
Utilisation of previously unrecognised tax losses	(1,973)	(1,997)
Temporary differences not recognised	35	566
Tax concessions	(868)	(217)
Effect of different taxation rates in other regions	(824)	249
Under/(over)-provision in prior years	54	(140)
Income tax expenses	53,885	61,143

#### 7. Earnings per share for profit attributable to ordinary shareholders of the Company

(a) Basic

The calculation of basic earnings per share for the year is based on the following:

For the year ended 30 June	2020	2019
	HK\$'000	(restated) HK\$'000
Profit for the year attributable to shareholders of the Company Less: Preferred distribution to the holder of convertible preference shares	309,563 (4,573)	307,374
Earnings used in the basic earnings per share calculation Weighted average number of ordinary shares in issue (shares in thousands) Basic earnings per share (HK\$)	304,990 450,000 0.68	307,374 450,000 0.68

#### (b) Diluted

During the year ended 30 June 2020, the Company issued convertible preference shares, with details set out in Note 1(iv), which are treated as contingently issuable potential ordinary shares under HKAS 33 "Earnings per Share". Since the conditions for their conversion were not met as at 30 June 2020, therefore, the effect of their conversion is not included in the calculation of the diluted earnings per share for year ended 30 June 2020. As a result, the diluted earnings per share equals to the basic earnings per share for the year ended 30 June 2020.

During the year ended 30 June 2019, the Company did not have any dilutive potential ordinary shares and therefore the diluted earnings per share equals basic earnings per share for the year ended 30 June 2019.

#### 8. Dividends

For the year ended 30 June	2020 HK\$'000	2019 HK\$'000
Interim dividend paid of HK12.8 cents (2019: HK10.1 cents) per share Final dividend proposed of HK14.4 cents	57,600	45,450
(2019: HK11.9 cents) per share	64,800	53,550
Total	122,400	99,000

Note:

At a meeting held on 25 September 2020, the Board recommended a final dividend of HK14.4 cents (2019: HK11.9 cents) per ordinary share to the ordinary shareholders of the Company. The final dividend will be paid in cash. This proposed dividend is not reflected as a dividend payable in the consolidated financial statements but will be reflected as an appropriation of the retained earnings for the year ending 30 June 2021.

# 9. Trade and other receivables

The ageing analysis of the Group's trade receivables (including amounts due from related parties of trading in nature) based on the invoice due date, net of provision for impairment, is as follows:

As at 30 June	2020	2019
	HK\$'000	(restated) HK\$'000
Current to 90 days 91 – 180 days Over 180 days	500,949 35,902 8,950	529,771 34,264 11,094
Total	545,801	575,129

# 10. Trade and other payables

The ageing analysis of the Group's trade payables (including amounts due to related parties of trading in nature) based on invoice date is as follows:

2020	2019
HK\$'000	(restated) HK\$'000
178,001	217,574
9,465	4,835
9,974	1,922
197,440	224,331
	HK\$'000 178,001 9,465 9,974

# MANAGEMENT DISCUSSION AND ANALYSIS

# **BUSINESS REVIEW**

In FY2020, the Group recorded revenue amounting to HK\$4,882.1 million, representing a decrease of HK\$540.6 million or 10.0%, as compared with HK\$5,422.7 million (restated) in FY2019. Profit attributable to shareholders for the Year was HK\$309.6 million, representing an increase of HK\$2.2 million or 0.7 % as compared with HK\$307.4 million (restated) in FY2019, mainly reflecting an overall savings in general and administrative expenses and lower income tax expenses, partly offset by a slight decrease in gross profit contribution, an impairment loss on non-current assets of the Group's laundry business and one-off professional fees and finance costs incurred for the acquisition of the property and facility management services business. The expanded business scale after the completion of the acquisition of the property and facility management services business provides a broader and more diversified revenue stream and enhanced profit source to the Group.

# E&M ENGINEERING & ENVIRONMENTAL SERVICES SEGMENT

# **E&M Engineering**

The Group has maintained its position as one of the leading E&M engineering companies in Hong Kong, capable of providing a comprehensive range of E&M engineering services and continued to run its E&M engineering operations in Mainland China and Macau. On top of its full range of licences and qualifications and effectiveness in managing tendering risks, the Group has integrated operating and control procedures, strong networks of well-established customers and suppliers, and an experienced and well-trained workforce to support all of its operations. Thus, the Group has strong confidence in securing and undertaking integrated E&M engineering projects in Hong Kong, Mainland China and Macau.

In addition, the Group is committed to creating a greener society. To help build a sustainable environment, it has been constantly optimising design and exploring innovative methods. At the project level, the Group incorporates the application of green building principles into building services equipment; and adopts green building design, modular integrated construction (MiC), Design for Manufacture and Assembly (DfMA) to reduce energy usage, carbon footprint and construction waste. In order to help improve its operational efficiency and project management, the Group invests in innovative construction technologies such as Building Information Modelling (BIM), DfMA, Robotic Total Solution (RTS) and Sky Drilling Machine (SDM), 3D laser scanning and mobile Apps solutions etc.

Going ahead, the Group will continue to focus on applying its core competencies to raise customer satisfaction and ensure sustainable growth and profitability of its business. It shall give first priority to large-scale projects including design and construction contracts from the government, public infrastructure works, hospital development projects, public housing and subsidised housing projects, as well as private commercial and residential building projects.

As at 30 June 2020, the Group's E&M engineering projects encompassed a wide range of buildings and facilities, including government buildings and facilities, offices, shopping malls, convention and exhibition centres, hotels, integrated resorts, residential properties, universities, hospitals and airport facilities.

During FY2020, the Group submitted tenders for 731 E&M engineering projects (with a contract sum equal to or exceeding HK\$1 million for each project, if awarded) with a total tender sum of HK\$22,824 million and was awarded contracts with a total value of HK\$4,578 million, which included 136 contracts (with a net contract sum equal to or exceeding HK\$1 million for each project) with a total net contract sum of HK\$4,393 million. Among these contracts, 8 of them are major projects (with net contract sum equal to or exceeding HK\$100 million for each project), which include Immigration Headquarters in Tseung Kwan O, SKYCITY commercial development projects in Chek Lap Kok, residential development projects in Central and the Kai Tak Development Area, Resort World and Studio City Phase 2 in Macau.

# **Environmental Services**

The Group's environmental services business continues to provide environmental assessment and energy efficient solutions to assist its customers in achieving their environmental protection and energy conservation objectives.

During FY2020, the Group submitted tenders for 35 environmental service contracts (with a contract sum equal to or exceeding HK\$1 million for each contract, if awarded) with a total tender sum of HK\$170 million and was awarded contracts with a total value of HK\$81 million, which included 5 projects (with a net contract sum equal to or exceeding HK\$1 million for each project) with a total net contract sum of HK\$11 million.

As at 30 June 2020, this business segment has a total gross value of contract sum of HK\$10,004 million with a total outstanding contract sum of HK\$7,681 million.

# INTEGRATED PROPERTY & FACILITY SERVICES SEGMENT

# **Cleaning Services**

The Group's cleaning services business, Waihong, encompasses a wide range of private buildings and public facilities in every corner of Hong Kong, which includes office towers, shopping malls, hotels, universities, international schools, tourism facilities, government properties, public utilities, convention and exhibition centre, railway stations, airport terminal building, hospitals, industrial buildings and residential properties. It is mainly engaged in providing specialist cleaning services including general cleaning, initial cleaning, housekeeping, recycling, marble and granite floor maintenance, food and solid waste collection, clinical and construction waste disposal, clinic support and integrated pest management services.

Regarding its cleaning service business, growing public awareness for clean and hygienic environment after the outbreak of the novel coronavirus ("COVID-19") will boost the demand of prestige service providers. Waihong, as a major player in the cleaning service industry, specialises in providing diverse, efficient, effective and the highest professional standard services to meet its customer needs.

Waihong is capable of providing professional and quality services for different kind of new projects to satisfy the market needs. The demand for specialist cleaning services is full of challenge recently due to slowdown of economy in Hong Kong. Nevertheless, newly-built commercial buildings, residential properties and public facilities will be increasingly

constructed in the coming years. Needs for quality cleaning service will be increased and Waihong may benefit from the rising demand in the service market. By capitalising on its extensive experience, quality and customised service with distinctive brand, Waihong has competitive advantages to secure new service contracts and attain a high renewal rate for its existing contracts. Waihong will extend its business strategy to widen the service portfolios in private and public sectors to sustain its market leadership.

During FY2020, Waihong submitted tenders for 371 cleaning service contracts (with a contract sum equal to or exceeding HK\$1 million for each service contract) with a total tender sum of HK\$7,370 million and was awarded service contracts with a total value of HK\$ 1,571 million, which included 94 service contracts (with a net contract sum equal to or exceeding HK\$1 million for each service contract) with a total contract sum of HK\$1,509 million. Among these 94 service contracts, 17 of them were major service contracts (with net contract sum equal to or more than HK\$20 million for each service contract), which included 3 shopping malls in Sha Tin, Sheung Wan and Tsim Sha Tsui, an international school and an academic hospital in the Southern District, a residential estate in Ma On Shan, an international bank facilities in Hong Kong, a group of shopping malls in East Kowloon and Tseung Kwan O Districts, 3 service contracts for government properties in Kowloon, New Territories and Hong Kong Island Districts, an exhibition center, the airport terminal building and 2 service contracts for a theme park in the Lantau Island District and a university in Kowloon Tong.

FY2020 was a challenging year for Waihong to sustain business growth under the social instability and outbreak of COVID-19. With the extra effort of its management team, Waihong has successfully renewed the most key contracts and gained numbers of profitable projects to widen its service portfolios in public and private markets. During FY2020, Waihong's revenue and net profit recorded double-digit increments compared with FY2019. Moreover, Waihong aims at investing in more innovative technologies such as robotic equipment and real time inspection system which may enhance its operation efficiency and relief workforce demands. Waihong will invest more resources to explore business opportunities from different market segments for further expansion.

# Laundry Services

The Group's laundry business group, NCL, is an experienced expert in the laundry and dry cleaning services in Hong Kong. NCL's clientele covers prestigious hotels, service apartments, clubhouses, an international theme park and major airlines.

During FY2020, NCL has commenced to provide laundry services to a hotel in the Cyberport, maintained its existing client segments and explore new segments that require high quality of laundry services. NCL expanded its business with a luxury hotel and service apartment on the Kowloon waterfront that were newly opened in 2019. NCL successfully renewed contracts with its key clients including an international theme park and its three hotels, and a global provider of catering and provisioning services for airlines.

During FY2020, NCL submitted tenders for 32 service contracts (with a contract sum equal to or exceeding HK\$1 million for each service contract) with a total tender sum of HK\$142 million and was awarded service contracts with a total value of HK\$285 million, including previously submitted tenders. The awarded service contracts included 7 major service

contracts (with a contract sum equal to or exceeding HK\$5 million for each service contract) with a total contract sum of HK\$270 million, including 2 contracts for an international theme park, a residential property group, a racing club, a restaurant group, an exhibition centre and a global provider of catering and provisioning services for airlines.

Despite of the above mentioned development, NCL was adversely affected in FY2020 due to social unrests and the outbreak of COVID-19 in Hong Kong. The hard hit retail, tourism and hospitality industries have impacted the turnover of our laundries. As NCL offers laundry, dry cleaning and linen management services to corporate customers including major high-end hotels, restaurant chains and theme parks, its business is impacted by the plummeted tourist arrivals and low hotel room occupancy rates. The unprecedented economic contraction, particularly the total shutdown of tourism and hospitality industries, has resulted in an overwhelming drop in the volume of NCL's laundry service. In view of the challenges, NCL has adopted various measures to achieve efficient operation while maintaining a high service quality and will intensify its focus on key accounts, efficient and effective cost management, ensuring customer satisfaction and sustainable growth of its business.

# **Property and Facility Management Services**

The Group's property and facility management services business, comprising Urban and Kiu Lok, is serving one of the largest property and facility asset portfolios in Hong Kong, which provides the most comprehensive and customised professional management services for its clients.

Urban and Kiu Lok are experts in six core property and facility management pillars: (i) residential property assets management; (ii) facilities management and operations, including both public and private sectors; (iii) commercial, retail and industrial premises operations, (iv) project management; (v) leasing and tenancy management and (vi) car park operations and management. Their property asset and facility services cover all kinds of property and facility assets including government offices and quarters, academic campus and educational institutes, service apartments, Grade A intelligent buildings and commercial complexes, modern industrial premises, composite residential developments to regional car parks and various kinds of public and private facility assets.

Urban and Kiu Lok's unique market differentiation lies in their vertical integration of services, strong pool of professional talents and partnership approach towards customers. Innovation keeps Urban and Kiu Lok at the forefront of the industry. They have been pioneering in the introduction of modern international standards and service models in property and facility management in Hong Kong.

During FY2020, Urban and Kiu Lok submitted tenders for 30 service contracts (with a contract sum equal to or exceeding HK\$1 million for each service contract) with a total tender sum of HK\$2,485 million and was awarded 20 service contracts (with a net contract sum equal to or exceeding HK\$1 million for each service contract) with a total contract sum of HK\$1,063 million. Among these 20 service contracts, 5 of them were major service contracts (with net contract sum equal to or more than HK\$10 million), including 3 government properties, staff quarters of a university and a residential estate.

As at 30 June 2020, this business segment has a total gross value of contract sum of HK\$4,836 million with total outstanding contract sums of HK\$1,799 million for its cleaning services and HK\$1,594 million for its property and facility management services businesses, respectively.

# FINANCIAL REVIEW

# Revenue

In FY2020, the Group's revenue dropped by HK\$540.6 million or 10.0% to HK\$4,882.1 million from HK\$5,422.7 million (restated) in FY2019, reflecting lower revenue from the E&M engineering & environmental services segment amounting to HK\$651.4 million, partly mitigated by higher revenue from the integrated property & facility services segment amounting to HK\$110.8 million.

The following tables present breakdowns of the Group's revenue by business segment and geographical region:

	For the year ended 30 June			
	2020	% of total	2019	% of total
		revenue	(restated)	revenue
	HK\$'M		HK\$'M	
E&M engineering & environmental				
services*	3,085.5	63.2%	3,736.9	68.9%
Integrated property & facility services*	1,796.6	36.8%	1,685.8	31.1%
Total	4,882.1	100.0%	5,422.7	100.0%

\* Segment revenue does not include inter-segment revenue.

	For the year ended 30 June			e
	2020	2019	Change	% Change
		(restated)		
	HK\$'M	HK\$'M	HK\$'M	
Hong Kong	4,171.0	4,430.4	(259.4)	(5.9%)
Mainland China	382.3	792.6	(410.3)	(51.8%)
Macau	328.8	199.7	129.1	64.6%
Total	4,882.1	5,422.7	(540.6)	(10.0%)

*E&M* (electrical and mechanical) engineering & environmental services: This segment continued to be the key revenue driver of the Group and contributed 63.2% (2019: 68.9% (restated)) of the Group's total revenue. Segment revenue of HK\$3,085.5 million (2019: HK\$3,736.9 million) for the Year composed of revenue from the provision of E&M engineering & environmental services amounting to HK\$3,015.5 million (2019: HK\$3,665.8 million) and HK\$70.0 million (2019: HK\$71.1 million) respectively. Segment revenue dropped by 17.4% or HK\$651.4 million to HK\$3,085.5 million from HK\$3,736.9 million, owing mainly to a reduced revenue contribution from Mainland China and Hong Kong by HK\$410.3 million and HK\$370.2 million respectively, partly mitigated by an increase in revenue contribution in Macau amounting to HK\$129.1 million. The reduced revenue contribution from Mainland China and Hong Kong reflected 2 sizeable E&M engineering installation projects which were substantially completed last year, including Spring City 66 in Kunming and West Kowloon

Government Offices, partly mitigated by the revenue contribution from a number of E&M engineering installation and renovation projects, including Transport Department's Vehicle Examination Centre and St. Regis Service Apartment in Macau, which had substantial progress this year. It should be noted that, under contract terms, only the management fees and reimbursable costs are reflected in the revenue of the Kai Tak Sports Park project.

Integrated property & facility services: This segment, which presently principally provides services in Hong Kong, contributed 36.8% (2019: 31.1% (restated)) of the Group's total revenue. Segment revenue of HK\$1,796.6 million (2019: HK\$1,685.8 million (restated)) for the Year comprises provision of cleaning services, laundry services and property and facility management services amounting to HK\$1,126.9 million (2019: HK\$988.2 million (restated)), HK\$102.1 million (2019: HK\$170.4 million) and HK\$567.6 million (2019: HK\$527.2 million) respectively and grew HK\$110.8 million or 6.6%. Such growth was mainly attributable to (i) contributions from a number of new general cleaning service contracts, which encompassed a wide range of buildings and facilities, including a large-scale public transportation facility, shopping malls, a government department, residential and commercial properties, (ii) additional ad-hoc intensive disinfection cleaning contracts following the outbreak of COVID-19 and (iii) higher revenue from the property and facility management services business, mainly driven by extensions of 2 non-residential property management contracts, including government buildings in Hong Kong, Kowloon and the New Territories and staff quarters of a university, partly offset by a reduction in revenue from the laundry business resulted from the plummeting tourist arrivals and lower hotel room occupancy rates following the outbreak of COVID-19 and social unrests.

# **Gross profit**

The following table presents the breakdown of the Group's gross profit by business segment:

		For the year ended 30 June			
	2020		2019 (re	(restated)	
	(	Fross profit		Gross profit	
	Gross profit	margin	Gross profit	margin	
	HK\$'M	%	HK\$'M	%	
E&M engineering & environmental					
services	434.9	14.1	462.1	12.4	
Integrated property & facility services	325.5	18.1	307.4	18.2	
Total	760.4	15.6	769.5	14.2	

The Group's gross profit slightly decreased by HK\$9.1 million or 1.2% to 760.4 million in FY2020 from HK\$769.5 million (restated) in FY2019, with an overall gross profit margin remained relatively stable at 15.6% (2019: 14.2% (restated)). The decrease in gross profit was mainly attributable to a reduction in E&M engineering & environmental services segment's gross profit of HK\$27.2 million to HK\$434.9 million from HK\$462.1 million. Lower gross profit was recorded from a number of sizeable E&M engineering installation projects in Mainland China and Macau which had significant progress or cost savings last year, including Shenyang New World International Convention and Exhibition Centre,

Tianjin Chow Tai Fook Financial Centre and Parisian Macau. Despite the fact that a number Mainland China and Macau E&M projects experienced low profit margin, the gross margin of the entire E&M engineering & environmental services segment has increased to 14.1% from 12.4% mostly reflecting cost savings from the West Kowloon Government Offices project.

The integrated property & facility services segment recorded an increase in the gross profit of HK\$18.1 million to HK\$325.5 million from HK\$307.4 million (restated), with its gross profit margin remained relatively stable at 18.1% (2019: 18.2% (restated)). The increase in gross profit mainly reflected a number of new general and ad-hoc intensive disinfection cleaning service contracts, the extensions of 2 non-residential property management contracts with a government department and a university, partly offset by the reduced laundry business volume impacted by the plummeting tourist arrivals and lower hotel room occupancy rates since the government's implementation of containment measures on the COVID-19 pandemic.

# Other (expenses)/income, net

Other net expenses in FY2020 amounted to HK\$9.3 million as compared with other net income of HK\$5.3 million (restated) recorded in FY2019. FY2020's net expenses mainly included an impairment loss of HK\$13.9 million on non-current assets of the Group's laundry business.

# **Finance income**

In FY2020, the Group recorded finance income of HK\$5.5 million (2019: HK\$5.2 million (restated)). The increase mainly reflected an increase in the average principal sum of the Group's bank deposits placed in Hong Kong.

# **Finance costs**

The Group's finance costs of HK\$10.1 million (2019: HK\$0.4 million (restated)) for FY2020 included interest expenses of HK\$7.4 million for the Group's bank loan financing its acquisition of the property and facility management services business and HK\$0.3 million for the property and facility management services business' short-term bank borrowings which were fully repaid during the Year and finance costs on lease liabilities of HK\$2.4 million following the Group's adoption of HKFRS 16 "Leases" starting from 1 July 2019.

# General and administrative expenses

General and administrative expenses of the Group for the Year decreased by 6.7% to HK\$384.0 million compared to HK\$411.7 million (restated) for last year. Such decrease of HK\$27.7 million mostly reflected a successful cost saving campaign and reduced depreciation of leasehold improvement in FY2020, partly offset by one-off professional fees of HK\$12.1 million for the acquisition of the property and facility management services business.

# **Income tax expenses**

The effective tax rate of the Group reduced by 1.7% to 14.9% (2019: 16.6% (restated)), mainly attributable to the non-taxable COVID-19 related government grants.

# Profit for the year attributable to shareholders of the Company

The following table presents breakdown of the Group's profit contribution by business segment:

	For the year ended 30 June			
	2020	2019	Change	% Change
		(restated)		
	HK\$'M	HK\$'M	HK\$'M	
E&M engineering & environmental				
services	210.3	207.1	3.2	1.5%
Integrated property & facility services	124.4	104.6	19.8	18.9%
Unallocated corporate expenses and				
finance costs*	(25.1)	(4.3)	(20.8)	483.7%
Total	309.6	307.4	2.2	0.7%

\* Unallocated corporate expenses and finance costs comprise the Company's corporate expenses of HK\$17.7 million (2019: HK\$4.3 million), mainly representing the one-off professional fees of HK\$12.1 million as mentioned above, and interest expenses of HK\$7.4 million (2019: Nil) for the Group's bank loan financing its acquisition of the property and facility management business.

As a result of the foregoing, the Group's profit in FY2020 slightly increased by 0.7% or HK\$2.2 million to HK\$309.6 million compared to HK\$307.4 million (restated) in FY2019. The increase mainly reflected the decrease in general and administrative expenses and income tax expenses as mentioned above, partly offset by a slight decrease in gross profit contribution, the impairment loss on non-current assets of the Group's laundry business and the finance costs incurred for the acquisition of the property and facility management services business. The net profit margin of the Group improved to 6.3% for the Year from 5.7% (restated) in last year.

# **Other comprehensive loss**

The Group recorded other comprehensive loss for the Year of HK\$5.6 million (2019: HK\$10.0 million (restated)), reflected an exchange reserve movement of HK\$5.9 million (2019: HK\$7.4 million) recorded during the Year following a depreciation of the Renminbi ("RMB") for conversion of the Group's net investments in Mainland China, remeasurement losses on long service payment liabilities of HK\$0.3 million (2019: gains of HK\$1.8 million (restated)), partly offset by remeasurement gains on defined benefit retirement scheme of HK\$0.6 million (2019: losses of HK\$2.6 million (restated)).

# Liquidity and financial resources

The Group's finance and treasury functions are centrally managed and controlled at its headquarters in Hong Kong. As at 30 June 2020, the Group had total cash and bank balances of HK\$700.9 million (30 June 2019: HK\$562.2 million (restated)), of which 92%, 6% and 2% (30 June 2019: 80%, 16% and 4% (restated)) were denominated in Hong Kong dollars, RMB and other currencies respectively, and total borrowings of HK\$463.2 million (30 June 2019: HK\$30.0 million (restated)) denominated in Hong Kong dollars. The Group's net cash balance decreased by HK\$294.5 million to HK\$237.7 million as at 30 June 2020 as compared to HK\$532.2 million (restated) as at 30 June 2019 mainly reflecting the cash consideration paid by the Group for its acquisition of the property and facility management services business totalling HK\$602.5 million and distribution of FY2019's final dividend of HK\$53.6

million and FY2020's interim dividend of HK\$57.6 million, partly mitigated by net cash inflow from operating and financing activities. The Group's net gearing ratio was maintained at zero as at 30 June 2020 (30 June 2019: 0%). This ratio is calculated as net debt divided by total equity. Net debt is calculated as total bank borrowings less cash and cash equivalents.

Adopting a prudent financial management approach in implementing its treasury policies, the Group maintained a healthy liquidity position throughout the reporting period. As at 30 June 2020, the Group had total banking facilities in respect of bank overdrafts, bank loans, bank guarantees and/or trade financing of HK\$2,556.4 million (30 June 2019: HK\$1,703.0 million (restated)). As at 30 June 2020, the Group has no banking facilities guaranteed by FSE Management Company Limited ("FMC", a direct wholly-owned subsidiary of FSE Holdings Limited) (30 June 2019: HK\$137.0 million (restated)) was guaranteed by FMC). As at 30 June 2020, HK\$959.1 million (30 June 2019: HK\$353.9 million (restated)) of the Group's banking facilities had been utilised for bank borrowings, bank guarantees and trade finance. The Group believes it has sufficient committed and unutilised banking facilities to meet current business operation and capital expenditure requirements.

# Debt profile and maturity

As at 30 June 2020, the Group's total debt increased to HK\$463.2 million from HK\$30.0 million (restated) as at 30 June 2019. All the bank borrowings of HK\$463.2 million as at 30 June 2020 will mature in December 2021. It is denominated in Hong Kong Dollar and bears interest at floating rates.

# Foreign currency exposure

The Group operates primarily in Hong Kong, Mainland China and Macau and is not exposed to significant exchange risk. The Group does not have a foreign currency hedging policy and foreign currency risk is managed by closely monitoring the movements of the foreign currency rates. It will consider entering into forward foreign exchange contracts to reduce exposure should the need arises.

As part of the Group's business is carried out in Mainland China, some of its assets and liabilities are denominated in RMB. The majority of these assets and liabilities had arisen from the net investments in Mainland China operations with net assets of HK\$169.7 million (30 June 2019: HK\$175.3 million) as at 30 June 2020. The foreign currency translation arising from translation of these Mainland China operations' financial statements from RMB (functional currency of these Mainland China operations) into Hong Kong dollars (the Group's presentation currency) does not affect the Group's profit before and after tax, and will be recognised in its other comprehensive income.

During the year under review, the fluctuation of RMB against Hong Kong dollars was 5.4% (comparing the highest exchange rate with the lowest exchange rate of the RMB against the Hong Kong dollars during the period under review).

As at 30 June 2020, if the Hong Kong dollars had strengthened/weakened by another 5.4% against the RMB with all other variables unchanged, the Group's other comprehensive income would have been HK\$9.2 million lower/higher.

# Use of net proceeds from listing

Between 10 December 2015 (date of listing of the Company) and 30 June 2020, the net proceeds of HK\$264.5 million received from the Company's Initial Public Offering ("IPO") or Global Offering (referred to the prospectus issued by the Company on 26 November 2015) and the revised use of unutilised proceeds of HK\$133.5 million as stated in the Company's announcement dated 26 June 2018 were applied in the manner as shown in the table below:

	Original use of proceeds from Global Offering HK\$'M	Utilised amount as at 26 June 2018 HK\$'M	Revised use of proceeds pursuant to the Company's announcement dated 26 June 2018 HK\$'M	Aggregated utilised amount from 27 June 2018 to 30 June 2019 HK\$'M	Aggregated utilised amount from 1 July 2019 to 30 June 2020 HK\$M	Unutilised amount as at 30 June 2020 HK\$'M
Investment in/acquisition of companies engaged in the installation and maintenance of ELV system	81.6	5.9	_	_	_	_
Development of environmental management business	51.0	3.6	20.0	13.0	7.0	_
Operation of E&M engineering projects on hand and prospective projects	47.4	47.4	88.1	88.1	_	_
Staff-related additional expenses	20.0	20.0	_	_	_	_
Development and enhancement of design capability	19.3	18.3	16.0	10.8	5.2	_
Enhancement of quality testing laboratory	12.2	4.9	7.3	1.8	1.9	3.6
Upgrade of corporate information technology system and software	8.0	5.9	2.1	2.1	_	_
General working capital	25.0	25.0	_	-	_	_
Total	264.5	131.0	133.5	115.8	14.1	3.6

The Group has utilised HK\$260.9 million of the net proceeds from Global Offering, of which HK\$14.1 million was utilised during the FY2020 with the actual usage consistent with the usage as intended and previously disclosed by the Company. The Group expects that the remaining balance of the IPO proceeds in the amount of HK\$3.6 million will be utilised in accordance with the manner as shown in the table above within 4 years up to 2023. The Group held the unutilised net proceeds mainly in short-term deposits or time deposits with licensed banks and authorised financial institutions in Hong Kong.

# **Capital commitments**

As at 30 June 2020, the Group had capital commitments of HK\$0.5 million (30 June 2019: HK\$3.0 million (restated)).

# **Contingent liabilities**

The Group had no material contingent liabilities as at 30 June 2020 and 30 June 2019.

# **Major transaction**

On 18 October 2019, a conditional sale and purchase agreement (the "S&P Agreement") was entered into between the Company, FSE Property Management Group Limited ("FPMGL", a direct wholly-owned subsidiary of the Company) and FMC (the "Vendor", a direct wholly-owned subsidiary of FSE Holdings Limited which is a controlling shareholder of the Company) whereby the Company agreed to purchase (or to procure a wholly-owned subsidiary to purchase) and the Vendor agreed to sell the entire issued share capital (the "Sale Share") of Legend Success Investments Limited ("Legend Success") (together with its subsidiaries as at the completion of the S&P Agreement, the "Target Group") at an initial consideration (the "Consideration") of HK\$704.9 million subject to adjustment. Pursuant thereto, the Company has nominated FPMGL to buy the Sale Share. The Target Group is principally engaged in the provision of property and facility management services.

The acquisition under the S&P Agreement was approved by the independent shareholders at the extraordinary general meeting of the Company held on 6 December 2019. Completion of the S&P Agreement took place on 16 December 2019 (the "Completion Date") upon which the initial sum of the Consideration of HK\$704.9 million was satisfied by the Company through (i) the payment of HK\$564.0 million in cash and (ii) a non-cash consideration of HK\$140.9 million through the issuance and allotment by the Company of 43,676,379 non-voting redeemable convertible preference shares of HK\$0.10 each at the issue price of HK\$3.2260 per share to FMC, credited as fully paid. A final cash payment for this acquisition of HK\$38.5 million was made on 13 February 2020 with reference to the unaudited net tangible asset value of the Target Group as at the Completion Date. The aggregate consideration for this acquisition is thus HK\$743.4 million.

The convertible preference shares are (i) convertible into 43,676,379 ordinary shares of the Company at an initial price of HK\$3.2260 per share (subject to adjustments upon occurrence of certain prescribed events, including consolidation, subdivision or reclassification of shares in the capital of the Company, capitalisation of profits or reserves etc., in each case if not also made available to the holder(s) of the convertible preference shares), provided that any conversion shall not result in the Company failing to comply with any public float requirement under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, within a period of 10 years after their date of issue of 16 December 2019 (the "Issue Date") and (ii) redeemable by the Company at its sole discretion at a redemption price equals to the Issue Price together with all outstanding preferred distributions accrued to the date fixed for redemption at any time after 10 years following the Issue Date. The convertible preference shares are treated as contingently issuable potential ordinary shares under Hong Kong Accounting Standard ("HKAS") 33 "Earnings per Share" and, since the conditions for their conversion were not met as at 30 June 2020, the effect of their conversion is not included in the calculation of the diluted earnings per share for year ended 30 June 2020 pursuant to HKAS 33's requirements as described in Note 7 to the consolidated financial statements. Assuming that all of the outstanding convertible preference shares were converted as at the end of the Year of 30 June 2020 and assuming their conditions for conversion were met, the Company's earnings per share after taking into account of the dilutive impact of such conversion for the year ended 30 June 2020 would be HK\$0.65 per

share, calculated as the Group's profit attributable to shareholders of the Company of HK\$309.6 million divided by the weighted average number of the Company's ordinary shares in issue of 473.6 million (after taking into account the weighted average number of incremental number of ordinary shares that would be issued from the conversion of the convertible preference shares on its Issue Date of 23.6 million). The convertible preference shares confer their holder(s) the right to receive preferred distributions from the Issue Date at a rate of 6.0% per annum on its Issue Price, payable annually in arrears. As (i) the Company may at its sole discretion redeem either in whole or in part the convertible preference shares for the time being outstanding (i.e. it has no obligation to settle them in cash unless it elects at its sole discretion to redeem) and (ii) the convertible preference shares are only convertible within a period of 10 years after the Issue Date but redeemable only after 10 years following the Issue Date, an analysis on the Company's share price at which it would be equally financially advantageous for the convertible preference share holder(s) to convert or redeem the convertible preference shares based on their implied rate of return at a range of dates in the future is not applicable. Based on the financial and liquidity position of the Group (with details set out in the paragraphs headed "Liquidity and financial resources" of this section), to the best knowledge of the Company, the Company expects that it will be able to meet its redemption obligations under the outstanding convertible preference shares issued by it.

Upon completion, each member of Legend Success became a wholly-owned subsidiary of the Company and the financial results, assets and liabilities of the Target Group have been consolidated in the financial statements of the Company for the Year.

#### ENVIRONMENTAL, SOCIAL AND GOVERNANCE

Addressing sustainability issues and managing Environmental, Social and Governance ("ESG") risks are essential to demonstrating our sustainability performance and meeting the expectations of our stakeholders. Under the guidance of an Executive Director, the Group's management committee oversees the management of ESG-related risks and the implementation of our Integrated Management System ("IMS") for the majority of our Group's operations. The IMS combines three international management system standards — ISO 9001 Quality Management System, ISO 14001 Environmental Management System and OHSAS 18001 Occupational Health and Safety Management System — providing a systematic approach to monitoring and managing ESG-related matters.

A stand-alone ESG report which references Appendix 27, Environmental, Social and Governance Reporting Guide, to the Listing Rules will be published on the websites of the Company and Hong Kong Exchanges and Clearing Limited in November 2020.

#### Discussion on environmental policies and performance

While there are no major environmental impacts associated with the Group's operations, environmental sustainability is the Group's key responsibility of integrating sustainable practices in our operations and contributing to a greener future. We have implemented the ISO 14001 Environmental Management System which is a core component of our IMS to monitor our environmental performance. This system allows us to have a clear focus on enhancing environmental awareness and commitment within the Group. The system is regularly audited by both internal and external parties to ensure its effectiveness in achieving continual improvement.

We are committed to reducing energy consumption and greenhouse gas ("GHG") emissions throughout all business operations. The Group signed the "Energy Saving Charter" launched by the Hong Kong Government's Environmental Protection Department ("EPD"), demonstrating strong dedication to reducing its carbon footprint. We continue to nurture environmental stewardship among our employees and foster behavioural change including paper use reduction, energy conservation and materials recycling.

With the Group's newly-introduced Green Office Guidelines, we have stepped up our efforts in implementing waste recycling practices across all operations. For instance, we procure paper from sustainable sources and place scrap paper boxes next to printers. In addition, our solid waste reduction programme at the Fanling workshop has identified opportunities to maximise the use of scrap metal and minimise disposal.

To instil an environmentally friendly culture within the Group, we continue to organise green activities and support external initiatives relating to environmental protection. During the Year, we participated in a beach cleaning activity organised by the Food, Environmental Hygiene Department and arranged a visit to the Jockey Club Museum of Climate Change which enabled our employees to gain an understanding of the climate changes in Hong Kong. Dedicated to exploring new technologies for a greener future, we have collaborated with Nano and Advanced Materials Institute Limited ("NAMI") in two research and development projects on water treatment and solid waste treatment.

#### Account of key relationships with employees, customers and suppliers Employees

We are steadfast in providing an inclusive, caring and safe work environment. We place strong emphasis on equal opportunities and our employees are remunerated with competitive salaries and benefits commensurate with their work experience and job duties. To effectively manage our human capital, we have a set of well-established and transparent procedures on talent acquisition and employee dismissal in place.

The wellbeing of our employees is crucial to creating a positive workplace. To accommodate the diverse interests of our employees, we arrange a variety of staff activities including interest classes on photography, pottery crafting, baking, and other sports and outdoor activities. Placing high value on continued professional development of our employees, we have established the Mentorship Programme and Graduate Scheme "A" Training.

As a component of our IMS, the Group has implemented the OHSAS 18001 Occupational Health and Safety Management System at our operations in Hong Kong, as well as the GB/T28001-2011/OHSAS 18001:2007 Occupational Health and Safety Management System at our operations in Mainland China. This integrated system guides our employees to assess, mitigate and control relevant health and safety hazards at all times. We also arrange safety training sessions on a regular basis to ensure our employees and subcontractors are well-informed of our safety policies and guidelines. With a high internal awareness on safety, we are pleased to report that there were no work-related fatalities during the Year.

#### Customers

The Group aims to provide efficient, professional and quality E&M engineering services to its customers. Aspiring to achieve high customer satisfaction rates, we have established the

ISO 9001 Quality Management System. Each of our business units establishes its own set of guidelines to ensure accountability in quality assurance. Regular audits are carried out to identify potential risks and defect issues in the business, and a standard audit system has been set up for our projects in Mainland China. In cases where quality or safety concerns arise, a thorough investigation will be conducted and effective correction actions will be promptly implemented.

#### Suppliers and subcontractors

The Group seeks to positively influence the environmental and social practices of its suppliers and subcontractors. Our established procurement procedure assesses project experience, safety performance and financial conditions which enables the Group to select supplier and subcontractors which share our sustainability vision. Only those which can meet the evaluation criteria will be included in our approved vendor list. The Group also reviews the suitability and sustainability performance of its suppliers and subcontractors annually to maintain consistency in the quality of our services. In case of serious non-compliance, substandard suppliers and subcontractors will be suspended or removed from the approved vendor list.

## Compliance status with relevant laws and regulations that have a significant impact on the business

During the Year, there were no reported cases of non-compliance with relevant laws and regulations that have had a significant impact on business regarding the environment, health and safety, labour standards, and data privacy.

#### EMPLOYEES AND REMUNERATION POLICY

As at 30 June 2020, the Group had a total of 13,701 employees (30 June 2019: 13,047 (restated)), including 4,742 (30 June 2019: 4,878 (restated)) casual workers and employees whose relevant costs are directly reimbursed by or charged to our customers or subcontractors. Staff costs for the Year, including salaries and benefits, was HK\$1,744.8 million (2019: HK\$1,657.1 million (restated)). The increase mainly reflects an increase in the average headcount of the Group's permanent employees, mainly at its cleaning services division.

The Group offers attractive remuneration packages, including competitive fixed salaries plus performance-based annual bonuses, and continuously provides tailored training to its employees with the aim of promoting upward mobility within its organisation and fostering employee loyalty. Our employees are subject to regular job performance reviews which determine their promotion prospects and compensation. Remuneration is determined with reference to market norms and individual employees' performance, qualification and experience.

The Company maintained a share option scheme, which aims at providing incentives to the eligible participants (including the employees of the Group) to contribute to the Group and enables us to recruit high-caliber employees and attract human resources that are valuable to the Group. As at the date of this announcement, no share options under this scheme have been granted.

All of the employees of the Group in Hong Kong have joined a mandatory provident fund scheme. The scheme is registered with the Mandatory Provident Fund Schemes Authority under the Mandatory Provident Fund Schemes Ordinance (Cap. 485 of the Laws of Hong Kong). The Group has complied with the relevant laws and regulations, and the relevant contributions have been made by the Group in accordance with the relevant laws and regulations.

#### OUTLOOK

#### **E&M Engineering & Environmental Services Segment**

#### 1. Installation Services

In Hong Kong, according to the construction expenditure forecast provided by the Construction Industry Council, expenditure in E&M construction works will amount to over HK\$23 billion for the public sector and over HK\$25 billion for the private sector in the fiscal year 2020/21.

The long-term housing strategy of the Hong Kong Government, as stated in its 2018 Policy Address, aims at continuing its ongoing efforts in increasing the land and housing supply and increasing the public-private housing ratio to 7:3. According to government projections, 450,000 residential flats will be provided in the next decade including 220,000 public housing units, 95,000 subsidised-sale units, and 135,000 private housing units. To achieve the target, the Government is allocating more land to public housing development and increasing the ratio of public housing to 70% of the housing units on its newly developed land for the coming 10 years up to 2029.

The Government will invoke the Lands Resumption Ordinance to resume three types of private land for public housing. These include (1) private-owned brownfield sites located in Ping Shan and Lam Tei; (2) private land which has been zoned for high-density housing development in statutory outline zoning plans; (3) the urban private land located in Cha Kwo Ling Village, Ngau Chi Wan Village and Chuk Yuen United Village. Furthermore, the Housing Authority is invited to explore the feasibility of redeveloping its factory estates for public housing use.

To prepare for the challenges brought by the aging population, the Hong Kong Government earmarked HK\$200 billion in 2016 for a 10-year hospital development plan. On top of the HK\$200 billion invested in the first 10-year plan, the Hong Kong Government has committed to an extra HK\$300 billion capital works program to support the second 10-year hospital development plan, improve the clinic facilities of the Department of Health, and upgrade and increase healthcare training facilities. In addition, the Hong Kong Government has decided to finance HK\$5 billion for the construction of a Chinese medicine hospital at Pak Shing Kok in Tseung Kwan O which is expected to be commenced in 2021 and operated in 2024.

To promote sport in the community and maintain Hong Kong as a centre for major international sporting events, the Hong Kong Government has planned to spend a total of HK\$20 billion between 2017 and 2021 to launch 26 projects to develop new or improve existing sports and recreation facilities. Besides, construction at the Kai Tak Sports Park,

the largest sport project with an investment over HK\$30 billion, has commenced in early 2019 and to be completed in 2023.

In addition, the Hong Kong Government has invited the MTRC to plan for three new railway lines including the Tung Chung Line Extension, the Tuen Mun South Extension and the Northern Link. The Hong Kong Government also requested the Airport Authority Hong Kong to create at Lantau an Aerotropolis connecting the Greater Bay Area and the world. These include the construction of a three-runway system, the expansion of the existing Terminal 2, the development of a high value-added logistics centre at the South Cargo Precinct, the SKYCITY development projects and the AsiaWorld Expo at the Hong Kong International Airport.

To encourage and enhance innovation and technology, the infrastructure works of the Hong Kong-Shenzhen Innovation and Technology Park at the Lok Ma Chau Loop has commenced in June 2018, with the objective of providing the first batch of land parcels for superstructure development not later than 2021.

In the 2019 Policy Address, the Government endeavours to transform Kowloon East into the second core business district, scale comparable with the core business district in Central District (about 3.76 million square metres of commercial floor area).

With increasing construction volumes, rising construction costs and ageing skilled workforce in recent years, together with multiple incidents in individual large-scale project, the construction industry in Hong Kong has been facing enormous pressure and challenges. The Group has been endeavoring to support the "Construction 2.0" (i.e. Innovation, Professionalisation and Revitalisation) as launched by the Government in 2019 to capitalize on future development opportunities and scale new heights.

Based on the Lands Department records and the lacklustre market sentiment, the land sales have dropped almost 80% since 2017, which will result in a reduced supply of private commercial and residential properties in the coming few years. In addition, the filibustering in the Legislative Council has delayed the award of new public works contracts, which adds to the rising construction cost. The Group has thus strived to maintain a relatively stable workforce and retain loyal staff members so as to preserve its competitiveness.

Regarding the Extra Low Voltage ("ELV") business, with more property developers adopting IT infrastructure and advanced technologies in their projects to enhance building sustainability and energy control, this presents good opportunities to generate business revenues and profit in the ELV business segment.

Since the establishment of the new ELV division in 2016, the Group has been awarded several ELV projects including three residential projects on Sai Yuen Lane, Sheung Heung Road and Waterloo Road, two public housing projects on Texaco Road in Tsuen Wan and Tung Chung Area 27, an office development project at King's Road in North Point, an Aviation Training Centre at Chek Lap Kok, Inland Revenue Tower at Kai Tak, Immigration Headquarter at Tseung Kwan O Area 67, SKYCITY commercial development in Chek Lap Kok and Kai Tak Sports Park.

Looking ahead, the Group will keep working with vendors to customise those systems according to the specific needs of customers, using advanced technologies such as Artificial Intelligence (AI) and Internet of Things (IOT), intelligent IP/IT-based and mobile Apps systems. The Group believes that with a highly qualified and experienced staff and sound project management skills, it can fulfill its commitment of delivering quality and professional services to all its valued customers.

In Macau, there is a constant demand for renovation and improvement works for hotels and casinos. In addition, the development of Galaxy Macau Phase 4 and Studio City Phase 2, and the renewal of casino licences in 2022 are expected to create emerging business opportunities for the Group in the coming few years.

The positioning of Macau as a world exemplary tourism and leisure centre addresses that region's need for adequate economic diversification and sustainable development. The Macau Special Administrative Region Government is expected to keep track of the pace of development of the gaming industry, and at the same time actively foster growth of integrated tourism in the city by reinforcing its non-gaming facilities.

For the Mainland China market, the Group has followed a disciplined business development approach focusing on the provision of E&M services to major property developments of Hong Kong and foreign investors. Apart from the three core bases in Guangzhou, Beijing and Shanghai, the Group has also established its presence in other first- and second-tier cities in Mainland China such as Tianjin, Dalian, Shenyang, Chengdu, Wuhan, Changsha and Nanjing.

The development of the Greater Bay Area will certainly enhance the economic and social growth in eleven cities of that Area. In addition, the three rapidly developing Guangdong Pilot Free Trade Zones – Hengqin, Qianhai and Nansha will bring in new business opportunities to the Group.

In recent years, the Group has been providing project management services across Mainland China to an international exhibition centre development in Shenyang, two high-rise building complexes in Tianjin and Guangzhou, and two commercial buildings in Beijing. The Group firmly believes that due to its high market recognition and armed with strong value-added E&M project management expertise in the areas of, among others, integrated services coordination, coordinated services drawing production, Building Information Modelling (BIM) techniques, project planning, quality assurance and system testing and commissioning, it will be a preferred partner of foreign and Hong Kong-based developers of high-end projects in Mainland China.

#### 2. Maintenance Services

As reflected in the statistics available, currently about 500 new buildings will be constructed each year and over 65% of the existing buildings (approximately 42,000) are aged over 20 years in Hong Kong including 1,700 commercial buildings, 1,600 industrial buildings and 24,000 residential buildings. The maintenance section of the Group's E&M engineering services thus envisages a growing demand for the term maintenance contracts from different prestigious commercial and residential buildings, hospitals, the public sector and educational institutions seeking the service of quality contractors to assist them in maintaining their properties in the best possible condition. The Group expects an increase in revenue from fitting-out works, system upgrade and replacement works following the implementation of the Mandatory Building Inspection Scheme (MBI Scheme) on 30 June 2012. Large-scale alteration and addition and system retrofit works are also set to provide favourable returns to the maintenance section.

#### 3. Environmental Services

Increasing public awareness of the importance of sustainable environment has fuelled the demand for environmental engineering services and products. The Building Energy Efficiency Ordinance (Chapter 610 of the Laws of Hong Kong) enacted in 2012 continues to support the business development of the Group's environmental consultancy services. Its seawater and fresh water treatment and odour removal products such as electro-chlorination and biotech deodorisation systems respectively have brought steady growth to its environmental engineering segment.

Our laboratory has been accredited by the Hong Kong Accreditation Service under the Hong Kong Laboratory Accreditation Scheme (HOKLAS) since 2015 which complement the work of the E&M engineering & environmental services segments. The Group has also been approved as an Accredited Indoor Air Quality ("IAQ") Certificate Issuing Body ("CIB"). The inspection works of IAQ further strengthen the Group's environmental consultancy services.

The Group is actively working with strategic partners and vendors to invest in strengthening its technological capabilities with a focus on air, water and waste treatment. As at present, the Group has collaborated with Nano and Advanced Materials Institute Limited to invest in and develop nano-bubble technology which converts ordinary air and water into strong oxidising fluid and solid waste technology.

#### **Integrated Property & Facility Services Segment**

#### 1. Cleaning Services

There are tremendous demands of antiviral coating and sterilisation services during the period of COVID-19 outbreak in Hong Kong. Waihong also reaps benefit from providing numerous sterilisation service orders by its current clients and ad-hoc customers. Waihong's management believes that such kind of disinfectant services would keep in high demand in the market until COVID-19 is completely controlled. Further, job creation scheme from government will create around 30,000 time-limited jobs in both public and private sectors including stepping up cleansing of government

buildings and schools in the coming two years. Relevant cleansing jobs may create about 3,000 additional workers from public or private market subsidised by government. Waihong will strive to engage these one-off contracts as it may generate higher profits and expand the market share in government sector for the Group.

Towards global trend of smart city development embracing innovation and technology, the Group will introduce more innovative technologies and robotic machines to reduce the manpower resource and increase the efficiency. Waihong will consider exploring or partnering some potential strategic business vendors to establish the competitive edges in the industry for further expanding specialist and sterilisation services to different market segments. Waihong has cooperated with biotech expertise for promotion of eliminating indoor air pollution and antiviral coating services in the market. Waihong will continue to seek for diversified services to satisfy market demands.

With thousands of tenders and quotations to be released to the market year to year, cleaning services providers benefit from contracts totaling billions of Hong Kong dollars from both the private and public sectors. Waihong, as one of major players in the cleaning services market, strives to retain a higher ratio of its existing service contracts and explore more new business from different market segments leveraging its competitive advantages. During FY2020, Waihong has consecutively succeeded in securing some new service contracts in high-end market, including prime office building and residential properties from well-known developers, prestige international college, superior bank facilities, academic hospital, science research buildings, exhibition center, airport terminal building, government properties and theme park. Waihong's management believes that these service contracts can support Waihong's business growth and optimise its brand name.

Foreseeing the downturn of worldwide economy by the pandemic outbreak of COVID-19, slowdown of Hong Kong economy is inevitable in the coming financial year. Waihong's teams have been requested to tighten control of expenditure in every aspect to tackle with the tough time. As unemployment rate is getting higher, Waihong will seize this opportunity to reallocate labour resources to ease the rising operations cost and seek for new business from relatively stable clients such as public institutions or government facilities. It is confident to overcome difficulties by various support measures by Waihong to enhance its communication with clients for tackling with unexpected challenges.

#### 2. Laundry Services

As a consequence of the outbreak of COVID-19 and social unrests, the industry is experiencing cut-throat competition, wafer-thin margin and reduced patronage in the laundry industry, the coming year therefore anticipated to be full of challenges and uncertainties. In view of the current pandemic as reflected in the increasing number of worldwide confirmed COVID-19 cases and the unprecedented economic contraction, particularly its significant impact on tourism and hospitality industries, which resulted in an overwhelming drop in the volume of NCL's laundry service, the outlook of NCL

remains bleak. Nevertheless, NCL will continue to maintain its service standard and operational efficiency. Its management will continue to closely monitor NCL's situation and apply appropriate remedial measures, including (i) review of its existing service contracts for opportunities of bargaining with clients for better terms, (ii) focusing more on key accounts and (iii) adoption of effective operational cost management, especially on manpower deployment.

#### 3. Property and Facility Management Services

Based on the Group's property and facility management services group's over 50 years of substantial experience and professional capabilities in this business, it is able to provide quality management services to preserve and add value to the property and facilities for its clients to enhance their reputation and asset values. With the increasing expectation of the corporate clients and property investors, there is a growing demand of one-stop and full service professional property and facility management services. Extended services include property pre-management services, project planning and management, building renovation and rejuvenation services, leasing and tenancy management, facility re-commissioning, and other value added services. Under the foreseeable unstable economic situation, Urban and Kiu Lok believe that large corporations and multinational enterprises will continue the trend to outsource their non-core property and facility management activities to external professional agencies, which creates new business opportunities to them.

Apart from the strong synergies generated among business units within the Group, Urban and Kiu Lok have also established extensive partnerships with professional service suppliers and contractors in the territory. It obtains its competitive advantages by creating economies of scale and bargaining power for its clients to achieve costeffectiveness and operational efficiency at all times. Most importantly, it is able to provide the most cost-effective services to them at the optimum price levels.

Discounting service companies owned by property developers, Urban is one of the largest independent Private Property and Facility Management Companies in Hong Kong. Under the current social situation and the demand for controlling rights of property owners, there is an increasing demand of independent property and facility management companies, which are not subsidiaries of property developers. Moreover, with the diminishing privilege of the property developers in directly assigning property management contracts to their subsidiaries, there is a huge market opening for management service contracts, capitalising on its good reputation, substantial experiences and extensive expertise.

Nowadays, both property owners and investors perceive brand recognition as one of the major selection criteria for their property and facility managers. With the brand equity of over 50 years' substantial experience obtained and accolades received from the Hong Kong society, Urban and Kiu Lok have created its unique selling proposition from the industry to obtain the trust from the clients.

Urban and Kiu Lok have been maintaining one of the strongest operation teams in the Hong Kong property and facility management services industry. They have over 5,000 professionally trained and qualified staff in the areas of property and facility management, technical and engineering, customer relations and security services. Following the enactment of the Property Management Services Ordinance (Cap. 626 of the Laws of Hong Kong), apart from the licensing of property management companies, there are also statutory requirements on the number of qualified and licensed property management professionals and practitioners being employed by property management companies as a proportion to their management portfolios. Urban and Kiu Lok have been well prepared for the statutory requirements with over 500 staff who are fully qualified for the Tier 1 and Tier 2 licences, which is believed to be one of the largest service teams in the industry. With such a strong team of professionals, it has maintained good competitive advantages over its rival companies in new tendering and business development activities in future. Moreover, it has a strong technical and engineering team to fulfill the market demands on the day-to-day repairs and maintenance services of its clients as well as the building renovation and rejuvenation projects to enhance the asset values of the properties and facilities.

Urban and Kiu Lok have long been recognised as a pioneer in introducing modern management models and standards to the Hong Kong property management industry. Urban is the first property management company to obtain the internationally recognised ISO 9001 quality management certification in 1997 and implement such system in all properties under its services. Currently, Urban has also successfully obtained the ISO 14001, ISO 50001, ISO 10002 and OHSAS 18001 certification, assuring its service standards at the highest level. In addition, Urban has been applying modern information technologies into its operations, which enable it to continuously improve the operational efficiency and cost-effectiveness in its service deliveries to its clients.

Apart from the statutory requirements, Urban and Kiu Lok have been implementing stringent governance initiatives covering environmental protection and care, corporate social responsibilities as well as risks and crisis control. With the implementation of the ISO 14001 environmental management system, the company is contributing to a greener living environment by applying green measures and control mechanisms into its daily operations. All along, Urban is a household name of "Hong Kong's Premier Community Manager" through organising and participating in over 100 CSR activities annually. More importantly, Urban's well-defined and comprehensive risks and crisis management system covers an extensive spectrum of crises, from the operational suspension of building services and systems breakdowns, to the territory-wide epidemic diseases and social movements in the society.

#### Impact of the outbreak of COVID-19 and its remedial measures

Since the outbreak of COVID-19 in January 2020, its resulting impact to the global economy is far-reaching and we have taken various proactive measures and contingency plans to contain the operational and financial risks which it brings to the Group. These include Team A and B arrangement, setting up of alternative offices, flexible business and lunch hours, IT

enhancement to sustain the business operations, provision of personal protective equipment, including face masks, disposable gloves and protective gowns, to our frontline staff, body temperature checking for anyone entering into our work areas and putting sanitizing handrubs in easily accessible places in our work areas to promote their usage by our staff, workers and visitors.

Regarding our E&M engineering business, as a result of the government's measures to contain the spread of the virus, the works of our construction projects have already experienced disruptions in the aspects below:

- delays in our projects' statutory submissions and inspections, including those from Buildings Department, Water Supplies Department and Fire Services Department due to government officials working from home;
- disruptions to supply and distribution channels have caused delays in supply of construction materials and pre-fabricated parts particularly from Mainland China and imported materials from Europe and Asia;
- shortage of labour force as workers from Mainland China have to be quarantined for 14 days mandatorily. This labour shortage is especially severe in Macau as the majority of workers there comes from the Mainland;
- temporary work suspension at project sites and buildings; and
- disruptions to business operations due to infected case, and some affected staff may need to self-quarantine and work from home.

In view of the above disruptions, we have kick-started discussions with customers on potentially affected projects and taken the following remedial measures to manage their possible delays and financial consequences:

- analysed the contract provisions on extension of time and force majeure clauses and issued notifications promptly to engineers and architects for our projects on the likelihood of any delays;
- made detailed records of site activities together with their cost implications for those delayed portions;
- closely monitored the supplies of materials and considered re-scheduling works or sourcing other suppliers;
- maintained effective work health and safety systems on site for workers, suppliers and subcontractors; and
- checked insurance arrangements on deferred material delivery and kept updating of new regulatory policies.

In conclusion, although some of our projects have encountered certain delays in contract completion due to the pandemic, which in turn deferred the revenue that could be recognised to next financial year, COVID-19 has only minor financial consequences on our Group's E&M engineering business as a whole.

Our laundry services business has also been affected by the dismal visitor numbers and low hotel room occupancy rates as majority of its clientele covers hotels, service apartments, theme park and airlines. To cope with this, NCL focuses on streamlining and improving operations efficiency and adopting effective cost management measures. In addition, our laundry operation has developed a comprehensive plan for COVID-19 prevention covering all of its work areas, tasks performed by our workers and potential risks, which includes the below measures:

- communicated closely with our clients to have separately identifiable packing for potentially infected items and handled them with extra care; and
- installed sneeze screens and ensured reasonable distancing in our staff canteen.

Our cleaning and property and facility management services businesses have faced relatively less disruptions. The COVID-19 outbreak has created more ad-hoc demands for intensive disinfection cleaning services. Nevertheless, for the sake of containing the risks arising from the epidemic, our cleaning and property and facility management services operations have implemented various precautionary measures including the followings:

- set policies to arrange some staff to work in alternative offices or from home if there are any reported COVID-19 cases among them and designated different entrances and exits in office for different groups of staff to reduce their interactions at our cleaning services operation; and
- implemented a well-defined sanitation management process for owners and tenants of properties, users of public and private facilities and own staff at the property and facility management services operation, including prompt sanitation actions to be taken once suspected COVD-19 cases in the work areas are reported.

Our environmental services business remains as usual and stable under the current situation.

Lastly, in view of the recent tight supply of infection prevention consumables, including masks and sanitation materials which are required in our day-to-day operations, we will closely monitor the situation and exercise concerted efforts as a group to help ensure sufficient supply of them to our colleagues and frontline workers.

#### Conclusion

Despite the challenges and operational difficulties we face in this financial year, in particular those arising from the outbreak of COVID-19 and social unrests, the Group's operations remained stable and the Group was able to record a moderate growth in its profit in the Year. The successful acquisition of the property and facility management services business in December 2019 has enabled the Group to enlarge its customer base, diversify its revenue stream and risks and enhance its profit growth potential. In addition, the Group shall endeavour to maintain a strong financial position so as to stay poised for new investment opportunities as and when they arise. We are confident that the Group will continue to grow.

## FINAL DIVIDEND

The Board has resolved to recommend a final dividend of HK14.4 cents (2019: HK11.9 cents) per ordinary share for the year ended 30 June 2020 to the shareholders whose names appear on the register of ordinary shareholders of the Company on 27 November 2020. The proposed final dividend, if approved at the forthcoming annual general meeting ("AGM") of the Company, will be paid on or about 7 December 2020. Together with the interim dividend of HK12.8 cents (2019: HK10.1 cents) per share paid in March 2020, total distribution of dividend paid to the ordinary shareholders by the Company for the year ended 30 June 2020 will thus be HK27.2 cents (2019: HK22.0 cents) per share, representing an increase of 23.6% compared with last year's and a dividend payout ratio of 45.7% (2019: 40.0%).

## **CLOSURE OF REGISTER OF ORDINARY SHAREHOLDERS**

The register of ordinary shareholders of the Company will be closed as set out below for the following purposes:

(i)	For the purpose of determining ordinary shareholders' eligit - Latest time to lodge transfer documents for registration	bility to attend and vote at the 2020 AGM: 4:30 pm on 13 November 2020	
	- Closure of register of ordinary shareholders	16 to 19 November 2020 (both dates inclusive)	
	- Record date	19 November 2020	
	- AGM date	19 November 2020	
(ii)	For the purpose of determining ordinary shareholders' entitlement to the final dividend:		
	- Ex-dividend date	24 November 2020	
	- Latest time to lodge transfer documents for registration	4:30 pm on 25 November 2020	
	- Closure of register of ordinary shareholders	26 to 27 November 2020 (both dates inclusive)	
	- Record date	27 November 2020	
	- Dividend payment date	on or about 7 December 2020	

During the above closure periods, no transfer of ordinary shares will be registered. To be eligible to attend and vote at the 2020 AGM and to qualify for the final dividend, all properly completed transfer forms accompanied by the relevant share certificates must be lodged for registration with the Company's branch share registrar and transfer office, Tricor Investor Services Limited, at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong no later than the respective latest time specified above.

## COMPLIANCE WITH CORPORATE GOVERNANCE CODE

The Company is committed to maintaining high standards of corporate governance to safeguard the interests of its shareholders and enhance the corporate value of the Group. The Company has applied the principles of the corporate governance code (the "Corporate Governance Code") contained in Appendix 14 to the Listing Rules to its corporate governance structure and practices. Throughout the Year, the Company had complied with all the code provisions set out in the Corporate Governance Code.

## **REVIEW OF ANNUAL RESULTS BY AUDIT COMMITTEE**

The Audit Committee of the Board was established for the purposes of, among other things, reviewing and providing supervision over the Group's financial reporting process and internal controls. It currently comprises four independent non-executive directors of the Company. The Audit Committee has reviewed the Group's audited consolidated financial statements for the year ended 30 June 2020, including the accounting principles and practices adopted by the Group.

The figures in respect of the Group's consolidated statement of financial position, consolidated income statement, consolidated statement of comprehensive income and the related notes thereto for the year ended 30 June 2020 have been agreed by the Group's auditor, PricewaterhouseCoopers ("PwC Hong Kong"), to the amounts set out in the Group's audited consolidated financial statements for the Year. The work performed by PwC Hong Kong in this respect did not constitute an assurance engagement in accordance with Hong Kong Standards on Auditing, Hong Kong Standards on Review Engagements or Hong Kong Standards on Assurance Engagements issued by the HKICPA and consequently no assurance has been expressed by PwC Hong Kong on the preliminary announcement.

# PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

Neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities during the Year.

On behalf of the Board of FSE Services Group Limited Lam Wai Hon, Patrick Vice-Chairman

Hong Kong, 25 September 2020

As at the date of this announcement, the Board comprises Dr. Cheng Kar Shun, Henry (Chairman) and Mr. Wong Kwok Kin, Andrew as non-executive directors, Mr. Lam Wai Hon, Patrick (Vice-Chairman), Mr. Poon Lock Kee, Rocky (Chief Executive Officer), Mr. Doo William Junior Guilherme, Mr. Lee Kwok Bong, Mr. Soon Kweong Wah and Mr. Wong Shu Hung (Dr. Cheng Chun Fai as his alternate) as executive directors, Mr. Kwong Che Keung, Gordon, Mr. Hui Chiu Chung, Stephen, Mr. Lee Kwan Hung, Eddie and Dr. Tong Yuk Lun, Paul as independent non-executive directors.
